

EDGAR – SEDAR – SEDI

## **News Release**

# **TNT Filings Inc. files first-ever XBRL filing on SEDAR and announces the launch of XBRLit**

September 27, 2007. *Toronto, ON.* TNT Filings Inc. (TNT), one of Canada's leading regulatory filing agencies, is pleased to announce that it has completed the first-ever XBRL submission of financial statements under Canada's voluntary filing program via SEDAR.

This groundbreaking filing was completed for the First Quarter financial statements of Newstrike Resources Ltd. (TSX VENTURE:NR) and can be viewed at [www.sedar.com](http://www.sedar.com).

The XBRL data for Newstrike was created using XBRLit, TNT's wholly-owned XBRL tagging tool.

XBRLit is a Java based web application that allows users to tag financial documents in Microsoft Word & Excel to XBRL using a Graphical User Interface similar to the Microsoft Office Environment.

Using XBRLit is easy. Users simply upload their financial documents to the application, select the taxonomies they wish to use and can begin their mark up immediately.

The application requires no software purchase or download, and can operate from any Java enabled web browser. Users can also save their progress and log back in at a later time to complete the mark up. Users within the same organization will have access to each other's mark ups and documents, to facilitate the tagging process.

"The innovative design of the application, coupled with the fact that it's an easy to use web application that requires no download – has made this a very attractive tool to XBRL users," said Wasim Thaha, Director of Business Development at TNT Filings Inc. and Vice-Chair of XBRL Canada.

"XBRL or Interactive Data is changing the course of financial reporting," he said. The United States Securities and Exchange Commission (SEC) and the Canadian Securities Administrators (CSA) have recognized the benefits that can be reaped from reporting in XBRL. As well, enabling Voluntary Filing Programs, on their respective reporting systems - EDGAR and SEDAR – is a huge step in the right direction.

"TNT Filings applauds the decision of both regulators and is proud to offer XBRLit, free of charge, to all companies wishing to participate in the SEC's and CSA's Voluntary Filing Programs," said Thaha.

To receive access to XBRLit, please send an email to [xbri@tntfilings.com](mailto:xbri@tntfilings.com) – providing your Company Name and the Users you wish to register.
